

Virginia Workers' Compensation Commission (VWC) Announcement

VWC EDI Claims R3.1 Implementation Effective 01/16/2025

Date: 08/01/2023

The Virginia Workers' Compensation Commission (VWC) announces its upcoming transition from IAIABC EDI Claims R3.0 to EDI Claims R3.1 effective 01/16/2025. Trading partners will use this time to assess their ability to report under R3.1, evaluate the EDI Requirement Tables and conduct adequate testing when testing becomes available. The EDI Claims Release 3.1 Version 1.0 Requirements (Revision Date: 07/27/2023, Effective Date: 01/16/2025) are posted on the Requirements page: <https://vwcedi.info/requirements>.

VWC will distribute an announcement when the VWC EDI Claims R3.1 Implementation Guide, Test Plan, and Transition Plan from IAIABC EDI Claims Release 3.0 to Release 3.1 become available for download on the VWC EDI Claims Services website.

We expect this conversion to allow more accurate reporting and overcome issues related to the limitations of R3.0, as well as allow the VWC to utilize significant enhancements made by the IAIABC in the new release. Ongoing updates will be made available on our website at <https://vwcedi.info/>.

As always, we welcome feedback from trading partners for proposed edits or suggestions as we work to streamline the requirements. Please send related questions or comments to edi.support@workcomp.virginia.gov.

Thank you,

Virginia Workers' Compensation Commission EDI Support Team
