

Virginia Workers' Compensation Commission (VWC) Announcement

VWC EDI Claims R3.1 FROI and SROI Testing begins April 30, 2024 for VWC Trading Partners (Direct SFTP) and EDI Vendors

Date: 04/23/2024

This notification provides important information regarding VWC EDI Claims R3.1 FROI and SROI Testing for VWC Trading Partners (Direct SFTP) and EDI Vendors which will begin on April 30, 2024. VWC Trading Partners (Direct SFTP) and EDI Vendors are required to complete the EDI Claims R3.1 Test Plan that is available at <https://vwcedi.info/impl-info>. FROI testing should be completed by September 6, 2024, and SROI testing should be completed by December 2, 2024. Testing concludes December 9, 2024, and the implementation date for EDI Claims Release 3.1 is January 16, 2025.

Please reach out to edi.support@workcomp.virginia.gov by April 30, 2024 if you have not done so to provide:

- 1) your anticipated Test Start Date
- 2) which IAIABC Claims R3.1 format you will use, either IAIABC R3.1 Flat File or IAIABC R3.1 XML format

Please note the following important information regarding testing:

- Incoming test files must contain proper information consistent with the approved method on the Trading Partner Profile
- Direct Filers and EDI Vendors can use the same SFTP connection as is used currently for VWC EDI Claims R3.0 testing.
- Ensure that the Test/Production Indicator (DN0104) located in position 82 of the Header Record is set to = T for all test data.
- VWC will return acknowledgements to the Trading Partner during the testing phase(s).
- Processing is typically completed within 2 business days after the data is submitted, with consideration for test file format issues or other unexpected processing issues.
- It is recommended that as much as possible, actual FROI and SROI scenario triggers should be used to meet the FROI and SROI testing requirements.

If you have questions or comments, please reach out to edi.support@workcomp.virginia.gov.

Thank you,

Virginia Workers' Compensation Commission EDI Support Team
